Candidate Species Conservation Fund	FWS	The principle objective of this Candidate Species Conservation funding opportunity is to accomplish conservation tasks for high priority candidate species (based on our annual Candidate Species Assessments) or other at-risk species in the United States, such that identified threats to the species may be reduced or eliminated. These efforts are based on cooperative relationships with states, non-governmental organizations, private landowners and those interested in habitat restoration or undertaking candidate and at-risk species research, surveys and monitoring, or educational outreach efforts.	\$0.5	No matched funding requirement	Application deadline: September 30, 2021	Ecosystem restoration	https://www.grants.gov/web/grants/view-opportunity.html?oppld=329585
Bay-Delta Restoration Program: CALFED Water Use Efficiency Grants for Fiscal Years 2021 and 2022	USBR	The Bay-Delta Restoration Program includes strategies to address ecosystem health, water supply reliability, and water quality. Water use efficiency is a critical element in the successful implementation of the Bay-Delta Restoration Program. The goals (objectives) of the CALFED Bay-Delta Program include, but are not limited to: Goal 1: Reduce existing irrecoverable losses, increasing the overall volume of available water; Goal 2: Achieve multiple state-wide benefits; Goal 3: Preserve local flexibility; and Goal 4: Build on existing water use efficiency programs. Reclamation is posting a Notice of Funding Opportunity (NOFO) for cost-share funding for water use efficiency and conservation activities. To be eligible for financial assistance, a proposed activity must have a defined relationship to the California Bay-Delta. Through this NOFO, Reclamation provides funding for projects that increase water reliability and improve water management, including the use of expanded technologies and improved capabilities consistent with the goals of the October 19, 2018, Presidential Memorandum on Promoting the Reliable Supply and Delivery of Water in the West.	\$1.0	At least 50% matched funding requirement	Application deadlines: November 30, 2021 for FY 2022	Integrated water management	https://www.grants.gov/web/grants/view-opportunity.html?oppld=329882
Hazard Mitigation Grant Program (HMGP)	FEMA	The HMG program provides funding to state, local, tribal and territorial governments so they can rebuild in a way that reduces, or mitigates, future disaster losses in their communities. This grant funding is available after a presidentially declared disaster.	Program is focused on providing ad-hoc funds to individuals and governments.	25% but can vary		Risk reduction	https://www.fema.gov/grants/mitigation/hazard-mitigation

National Operation Center Fisheries and Aquatic Resource Management	Bureau of Land Management	The BLM Aquatic Habitat Management mission area works cooperatively with a wide range of constituents to manage for the biological, chemical, and physical integrity and function and natural diversity of aquatic ecosystems. The BLM develops strategies that provide protection for instream, riparian and wetland areas as well as maintain or restore stream function and stream access to floodplains while supporting multiple uses on public lands. The program manages and guides fish and aquatic habitat conservation, riparian and wetland conservation, control of aquatic invasive species, aquatic organism passage, and monitoring riparian and instream habitat conditions and water quantity and quality conditions and trends.	\$1.0	No matched funding requirement	Application deadline: April 13, 2021	Ecosystem restoration	https://www.grants.gov/web/grants/view-opportunity.html?oppld=331429
Central Valley Project Conservation Program for Fiscal Year 2021 and 2022	Bureau of Reclamation	The objective of the Notice of Funding Opportunity (NOFO) is to invite eligible applicants to submit applications for projects that benefit federally listed and other special-status species whose habitats and populations have been impacted by operation of the Central Valley Project (CVP). An additional objective is to ensure the award selection process is in compliance with competition requirements related to federal financial agreements, and to ensure public participation in the Central Valley Project Conservation Program (CVPCP).	\$3.0	No matched funding requirement	Application deadline: April 19, 2021	Ecosystem conservation	https://www.grants.gov/web/grants/view-opportunity.html?oppld=331607
Fiscal Year 2021 Conservation Innovative Grants Program	US Department of Agriculture	The purpose of Conservation Innovative Grants (CIG) is to stimulate the development and adoption of innovative conservation approaches and technologies in conjunction with agricultural production. CIG projects are expected to lead to the transfer of conservation technologies, management systems, and innovative approaches (such as market-based systems) to agricultural producers, into government technical manuals and guides, or to the private sector. CIG generally funds pilot projects, field demonstrations, and on-farm conservation research. On-farm conservation research is defined as an investigation conducted to answer a specific applied conservation question using a statistically valid design while employing farm-scale equipment on farms, ranches, or private forest lands.	\$1.0	50% cost sharing	Application deadline: April 23, 2021	Ecosystem conservation	https://www.grants.gov/web/grants/view-opportunity.html?oppld=331616

Fiscal Year 2021 Cooperative Endangered Species Conservation Fund	FWS	The principle objective of the Traditional Conservation Grant Program is to support the development and implementation of States' programs to conserve and recover threatened and endangered species under the Service's jurisdiction. Financial assistance, provided in the form of grants, can be used to support projects that have direct conservation benefits for federally listed species, candidate and at-risk species, and recently delisted species. States may apply for funding to conduct work on federally-listed resident species that are included in the State's cooperative agreement. States may also apply for funding to monitor candidate, at-risk, and recently delisted species. Candidate Species are those that the Service determined warrant listing as a threatened or endangered species, but the listing is precluded by other higher priority actions.	\$2.2	25% cost sharing	Application deadline: May 12, 2021	Ecosystem conservation	https://www.grants.gov/web/grants/view-opportunity.html?oppld=329799
Fiscal Year 2021 Emergency Management Performance Grant Program	FEMA	Provide funds to assist state, local, tribal, and territorial emergency management agencies to implement the National Preparedness System (NPS) and to support the National Preparedness Goal (the Goal) of a secure and resilient nation. To that end, program objectives include: 1) closing capability gaps that are identified in the state or territory's most recent Stakeholder Preparedness Review (SPR); and 2) building or sustaining those capabilities that are identified as high priority through the Threat and Hazard Identification and Risk Assessment (THIRA)/SPR process and other relevant information sources.	\$23.9	50% cost sharing maximum	Application deadline: May 14, 2021	Emergency management	https://www.grants.gov/web/grants/view-opportunity.html?oppld=331728
Partners for Fish and Wildlife	FWS	The Partners for Fish and Wildlife (PFW) Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative and grant agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources. The PFW Program is delivered through more than 250 full-time staff, active in all 50 States and territories. Partners for Fish and Wildlife Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Award ceiling of \$750K.	\$57.0	No matched funding requirement	Application deadline: September 30, 2021	Ecosystem restoration	https://www.grants.gov/web/grants/view-opportunity.html?oppld=329747
