

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Deadline	Water Management Category	Reference
California Farmland Conservancy Program	Department of Conservation	The Program seeks to encourage the long-term, private stewardship of agricultural lands through planning and the voluntary use of agricultural conservation easements. The CFCP provides grant funding for easement and planning projects that support agricultural land conservation statewide.	\$7.0	5% matched funding requirement	Application deadline: March 15, 2021	Agriculture	https://www.grants.ca.gov/grants/california-farmland-conservancy-program/
California Riparian Habitat Conservation Program	Wildlife Conservation Board	Projects should include, but are not limited to: Restoration of riparian vegetation and re-establishing floodplain connectivity. Removal and control of non-native invasive plant species to restore (actively or passively) native riparian vegetation. Installation of fencing along the riparian corridor to manage livestock or wildlife and reduce impacts to streams or riparian vegetation. Reconfigure degraded, incised, or undefined streams to restore natural hydrology and encourage reestablishment of native riparian habitat.	\$12.0	No matched funding requirement	Application deadline: March 31, 2021	Ecosystem restoration	https://www.grants.ca.gov/grants/california-riparian-habitat-conservation-program/
Forest and Watershed Health Directed Grants Program	Sierra Nevada Conservancy	To be considered for funding, projects must fall within at least one (or more) of the focus areas: Implementation of prescribed fire to improve watershed health. Project tasks may include pre-burning treatment and site preparation but must also implement prescribed fire on the landscape. Projects that include only planning for prescribed fire or conduct pre-burning site treatments will not be eligible for funding. Large-landscape planning projects for forest health which demonstrate multiple watershed and ecosystem benefits. These projects must complete project planning on a minimum of 10,000 acres. At the close of the planning project, all environmental compliance must be complete. Implementation of forest health planning projects for which SNC previously funded the planning phase. Projects that connect and serve underserved partners. Strategic partners that have received no more than one SNC grant since the start of the WIP Forest Health Program (in FY 2015-2016 with funding from Proposition 1) will be eligible for grants to support planning or implementation of multi-benefit forest and watershed health projects.	\$3.0	No matched funding requirement	Ongoing application period. Expected award date: March 2021.	Ecosystem restoration	https://www.grants.ca.gov/grants/forest-and-watershed-health-directed-grants-program/
Resilient Sierra Nevada Communities Directed Grant Program	Sierra Nevada Conservancy	The Program is a multi-disciplinary grant program that will provide resources for capacity building and technical support to local agencies, organizations, and tribes. These funds can be used to design, manage, and implement projects that will increase community resiliency against, and recovery from, natural disasters and ecological and economic challenges.	\$1.0	No matched funding requirement	Ongoing application period. Expected award date: March 2021.	Social/community resilience	https://www.grants.ca.gov/grants/resilient-sierra-nevada-communities-directed-grant-program/

Central Valley Tributaries Program	DWR	This Program will implement flood risk reduction projects with fish and wildlife habitat enhancements in the Central Valley of California (excluding Legal Delta). Priority points will be given to projects associated with supporting Voluntary Agreements to improve water quality in the Sacramento - San Joaquin River Delta. Eligible funding recipients include any California public agency, nonprofit organization, or Tribe. Projects must include a capital asset acquisition or construction component that must not yet be under construction or acquisition to be eligible. Design, environmental documentation, and studies may be incorporated into the project scope, but cannot be funded as stand-alone projects. Any acquisitions must be from willing sellers to be eligible for reimbursement. Special consideration will be given to economically distressed or disadvantaged communities when scoring applicants. Local cost share maximum is 50%, however multiple mechanisms to reduce local cost share are detailed in the guidelines. Local cost share may be reduced to 0% depending on the economic status of a community benefitted by a proposed project.	\$26.7	50% maximum local cost share with exceptions	Ongoing application period. Expected award date: Spring 2021.	Risk reduction	https://www.grants.ca.gov/grants/central-valley-tributaries/
Floodplain Management, Protection, and Risk Awareness (FMPRA) Grant Program	DWR	The Program supports local agency efforts to prepare for flooding events by providing financial assistance for flood risk reduction activities related to stormwater, mudslide, and other flash flood related protections. This Program will incorporate an increased focus on economically disadvantaged community assistance and multi-benefit project features. Funded by Proposition 68.	\$25.0	25% matched funding requirement with some exceptions	Anticipated open date: Summer 2021	Risk reduction	https://www.grants.ca.gov/grants/floodplain-management-protection-and-risk-awareness-program-2/
Ecosystem Restoration and Water Quality Grant Program – Proposition 1	Sacramento-San Joaquin Delta Conservancy	The Conservancy will fund projects that address at least one of the following priorities: 1) ecosystem protection, restoration, and enhancement; 2) water quality; and 3) water-related agricultural sustainability.	\$2.1	No matched funding requirement	Application deadline: December 31, 2021	Ecosystem restoration	https://www.grants.ca.gov/grants/ecosystem-restoration-and-water-quality-grant-program-proposition-1-2/
Sustainable Groundwater Management (SGM) Grant Program’s Proposition 68 Implementation Round 2	DWR	Financial help with implementing SGMA projects. Round 2 opens up for medium and high-priority (including COD) basins. One application allowed per basin. \$15M (of the total \$77M) will be available in Round 2 for projects that are within and solely benefit an underrepresented community.	\$77.0	25% local cost share with some exceptions	Anticipated open date: Spring 2022	Groundwater	https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-proposition-68-implementation-round-2/
Habitat Enhancement and Restoration Program	Wildlife Conservation Board	Eligible projects include: native fisheries restoration; restoration of wetlands; restoration of coastal, tidal, or fresh water habitat; other native habitat restoration projects including coastal scrub oak, grasslands, and threatened and endangered species habitats; in-stream restoration projects, including removal of fish passage barriers and other obstructions; and other projects that improve the quality of native habitat throughout the State.	\$1.0	No matched funding requirement	Continuous	Ecosystem restoration	https://www.grants.ca.gov/grants/habitat-enhancement-and-restoration-program/
Inland Wetlands Conservation Program	Wildlife Conservation Board	The Inland Wetlands Conservation Program (IWCP) was created to assist the Central Valley Joint Venture (CVJV) in its mission is to protect, restore, and enhance wetlands and associated habitats. The CVJV, a partnership of twenty two public and private organizations and agencies, has identified through its Implementation Plan, specific goals to increase migratory bird populations.	\$3.0	No matched funding requirement	Continuous	Ecosystem restoration	https://www.grants.ca.gov/grants/inland-wetlands-conservation-program/

Community and Economic Enhancement Grant Program – Proposition 68	Sacramento-San Joaquin Delta Conservancy	This non-competitive grant program focuses on increasing public access to the Delta through recreation and tourism opportunities, historic and cultural preservation, and environmental education in order to promote a robust Delta economy.	\$8.7	No matched funding requirement	Ongoing	Social/community resilience	https://www.grants.ca.gov/grants/community-and-economic-enhancement-grant-program-proposition-68/
404 Hazard Mitigation Grant Program	Governor's Office of Emergency Services	Hazard Mitigation Grant Program (HMGP) funds plans and projects that reduce the effects of future natural disasters. In California, these funds are administered by the Cal OES HMGP Unit. Eligible subapplicants include state agencies, local governments, special districts, and some private non-profits.	\$0.5	25% matched funding requirement	Application deadline: May 1, 2021	Risk reduction	https://www.grants.ca.gov/grants/404-hazard-mitigation-grant-program/
Regional Conservation Investment Strategies (RCIS)	Wildlife Conservation Board	WCB is seeking high-quality grant proposals for the development of RCIS's. CDFW's RCIS program encourages public agencies to develop regional conservation planning documents using the best available science to identify regional conservation priorities and other actions to help California's species populations that may be vulnerable or declining by protecting, restoring, creating, and reconnecting their habitats. A Regional Conservation Investment Strategy (RCIS) is a voluntary, non-regulatory document that provides guidance on actions that, if implemented, would result in effective regional conservation. Any public agency may propose an RCIS that is developed in consultation with local agencies that have land use authority within the RCIS area.	\$3.0	No matched funding requirement	Ongoing	Ecosystem restoration	https://www.grants.ca.gov/grants/regional-conservation-investment-strategies-rcis/
2021 Natural Community Conservation Planning (NCCP) Local Assistance Grant Program	Department of Fish and Wildlife	The California Department of Fish and Wildlife seeks proposals for highest priority projects associated with NCCP implementation. The intention of this Proposal Solicitation Package is to solicit proposals of the highest quality that are consistent with the goals of the NCCP Program. To help achieve this intention, this Proposal Solicitation Package (PSP) provides guidance on Applicant eligibility, the grant process and deadlines, and application and submission procedures. Eligible Applicants are Implementing Entities (IEs) that are implementing a CDFW-approved NCCP as or will be implementing an NCCP within 12 months of the release of this Proposal Solicitation Package. Public agencies, tribes, and non-profit organizations that have an interest in assisting with the implementation of Eligible Projects are also eligible. Proposals must address the highest priority tasks associated with the implementation of approved NCCPs or NCCPs that are likely to be approved by (date to be determined). Routine, on-going management activities are not eligible. Projects legally required as mitigation by a regulatory agency as a condition for a permit are not eligible for funding under this grant program. However, a project that is additive to any required mitigation and addresses a high-priority task for implementation of the NCCP is eligible for funding.	\$2.0	No matched funding requirement	Anticipated open date: Spring 2021	Ecosystem restoration	https://www.grants.ca.gov/grants/2021-natural-community-conservation-planning-nccp-local-assistance-grant-program/
