

USJR RFMP State Funding Opportunities

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Deadline	Water Management Category	Reference
Floodplain Management, Protection, and Risk Awareness (FMPRA) Grant Program	DWR	The Program supports local agency efforts to prepare for flooding events by providing financial assistance for flood risk reduction activities related to stormwater, mudslide, and other flash flood related protections. This Program will incorporate an increased focus on economically disadvantaged community assistance and multi-benefit project features. Funded by Proposition 68.	\$25.0	25% matched funding requirement with some exceptions	Anticipated open date: Summer 2021	Risk reduction	https://www.grants.ca.gov/grants/floodplain-management-protection-and-risk-awareness-program-2/
2022 Clean Water Act Section 319 Nonpoint Source Pollution Grant	State Water Resources Control Board	The Clean Water Act Section 319 Grant Program awards grants to reduce and mitigate the effects of nonpoint source pollution - such as sediment, pesticides, and nutrients - to waters of the state. The program primarily funds implementation projects, but occasionally offers grants for planning projects. Examples of projects include livestock fencing to reduce sediment and nutrient discharges, agricultural best management practices to reduce pesticide and nutrient discharges, dredging contaminated sediment from pesticide-impaired waters, habitat restoration such as installation of large woody debris and riparian revegetation, and rural road inventories and repairs to reduce sedimentation and erosion. Most awards go to projects that improve impaired waters, but a small amount of funding goes to projects that protect high-quality waters, or that address a nonpoint source pollution problem created by wildfire.	\$4.5	25% local cost share with some exceptions	Anticipated open date: September 2021	Risk reduction	https://www.grants.ca.gov/grants/2022-clean-water-act-section-319-nonpoint-source-pollution-grant-t/
Ecosystem Restoration and Water Quality Grant Program – Proposition 1	Sacramento-San Joaquin Delta Conservancy	The Conservancy will fund projects that address at least one of the following priorities: 1) ecosystem protection, restoration, and enhancement; 2) water quality; and 3) water-related agricultural sustainability.	\$2.1	No matched funding requirement	Application deadline: December 31, 2021	Ecosystem restoration	https://www.grants.ca.gov/grants/ecosystem-restoration-and-water-quality-grant-program-proposition-1-2/
Proposition 1 – Round 2 Integrated Regional Water Management (IRWM) Implementation Grant Program	DWR	The IRWM Grant Program is designed to encourage integrated regional strategies for water resource management in California by providing funding for projects and programs throughout the state including climate change adaptation, providing incentives for collaboration and setting priorities in water resource and infrastructure management, and improving regional water self-reliance while reducing reliance on Sacramento-San Joaquin Delta.	\$192.0	50% local cost share with exceptions	Anticipated open date: Late 2021	Integrated water management	https://www.grants.ca.gov/grants/proposition-1-round-2-integrated-regional-water-management-irwm-implementation-grant-program/
Sustainable Groundwater Management (SGM) Grant Program’s Proposition 68 Implementation Round 2	DWR	Financial help with implementing SGMA projects. Round 2 opens up for medium and high-priority (including COD) basins. One application allowed per basin. \$15M (of the total \$77M) will be available in Round 2 for projects that are within and solely benefit an underrepresented community.	\$77.0	25% local cost share with some exceptions	Anticipated open date: Spring 2022	Groundwater	https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-proposition-68-implementation-round-2/
Habitat Enhancement and Restoration Program	Wildlife Conservation Board	Eligible projects include: native fisheries restoration; restoration of wetlands; restoration of coastal, tidal, or fresh water habitat; other native habitat restoration projects including coastal scrub oak, grasslands, and threatened and endangered species habitats; in-stream restoration projects, including removal of fish passage barriers and other obstructions; and other projects that improve the quality of native habitat throughout the State.	\$1.0	No matched funding requirement	Continuous	Ecosystem restoration	https://www.grants.ca.gov/grants/habitat-enhancement-and-restoration-program/

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Deadline	Water Management Category	Reference
Inland Wetlands Conservation Program	Wildlife Conservation Board	The Inland Wetlands Conservation Program (IWCP) was created to assist the Central Valley Joint Venture (CVJV) in its mission is to protect, restore, and enhance wetlands and associated habitats. The CVJV, a partnership of twenty two public and private organizations and agencies, has identified through its Implementation Plan, specific goals to increase migratory bird populations.	\$3.0	No matched funding requirement	Continuous	Ecosystem restoration	https://www.grants.ca.gov/grants/inland-wetlands-conservation-program/
Community and Economic Enhancement Grant Program – Proposition 68	Sacramento-San Joaquin Delta Conservancy	This non-competitive grant program focuses on increasing public access to the Delta through recreation and tourism opportunities, historic and cultural preservation, and environmental education in order to promote a robust Delta economy.	\$8.7	No matched funding requirement	Ongoing	Social/community resilience	https://www.grants.ca.gov/grants/community-and-economic-enhancement-grant-program-proposition-68/
Regional Conservation Investment Strategies (RCIS)	Wildlife Conservation Board	WCB is seeking high-quality grant proposals for the development of RCIS's. CDFW's RCIS program encourages public agencies to develop regional conservation planning documents using the best available science to identify regional conservation priorities and other actions to help California's species populations that may be vulnerable or declining by protecting, restoring, creating, and reconnecting their habitats. A Regional Conservation Investment Strategy (RCIS) is a voluntary, non-regulatory document that provides guidance on actions that, if implemented, would result in effective regional conservation. Any public agency may propose an RCIS that is developed in consultation with local agencies that have land use authority within the RCIS area.	\$3.0	No matched funding requirement	Ongoing	Ecosystem restoration	https://www.grants.ca.gov/grants/regional-conservation-investment-strategies-rcis/
Infrastructure State Revolving Fund (ISRF) Program	Infrastructure and Economic Development Bank (IBank)	The ISRF Program provides financing to public agencies and non-profit corporations, sponsored by public agencies, for a wide variety of infrastructure and economic development projects (excluding housing). ISRF Program funding is available in amounts ranging from \$50,000 to \$25 million with loan terms for the useful life of the project up to a maximum of 30 years. Eligible Projects Include, but are not limited to: City streets, County highways, State highways, Drainage, water supply and flood control, Educational, cultural and social facilities, Environmental mitigation measures, Goods movement-related infrastructure, Parks and recreational facilities, Port facilities, public transit, Power and communications facilities, Public Transit, Sewage collection and treatment, Solid waste collection and disposal, Water treatment and distribution, Defense conversion, Public safety facilities, Military infrastructure, Industrial, utility and commercial.	\$100.0	No matched funding requirement	Continuous	Social/community resilience	https://www.grants.ca.gov/grants/infrastructure-state-revolving-fund-isrf-program/
RCD Financial Assistance Program	Department of Conservation	Financial Assistance Program funding will help Resource Conservation Districts (RCDs) become more relevant, excellent, and visible by building capacity. Capacity building is an investment in the effectiveness and future sustainability of an organization. While this funding is an initial investment in RCD capacity, the growth, effectiveness and sustainability of an RCD is ultimately the responsibility of the organization.	\$0.1	25% local cost share of which 40% must be in cash	Forecasted program	Social/community resilience	https://www.grants.ca.gov/grants/rcd-financial-assistance-program/
