2022 Clean Water Act Section 319 Nonpoint Source Pollution Grant	State Water Resources Control Board	<p>The Clean Water Act Section 319 Grant Program awards grants to reduce and mitigate the effects of nonpoint source pollution - such as sediment, pesticides, and nutrients - to waters of the state.</p> <p>The program primarily funds implementation projects, but occasionally offers grants for planning projects. Examples of projects include livestock fencing to reduce sediment and nutrient discharges, agricultural best management practices to reduce pesticide and nutrient discharges, dredging contaminated sediment from pesticide-impaired waters, habitat restoration such as installation of large woody debris and riparian revegetation, and rural road inventories and repairs to reduce sedimentation and erosion. Most awards go to projects that improve impaired waters, but a small amount of funding goes to projects that protect high-quality waters, or that address a nonpoint source pollution problem created by wildfire.</p>	\$4.5	25% local cost share with some exceptions	Application deadline: December 17, 2021	Risk reduction	<a href="https://www.grants.ca.gov/grants/2022-clean-water-act-section-319-nonpoint-source-pollution-grant_t/">https://www.grants.ca.gov/grants/2022-clean-water-act-section-319-nonpoint-source-pollution-grant_t/</a>
2021 Hazard Mitigation Grant Program (HMGP)	Cal OES	<p>This opportunity provides funding for communities to implement mitigation activities to reduce risk to life and property from natural hazards. In CA, natural hazards include wildfire, earthquake, drought, extreme weather, flooding, and other impacts of climate change. HMGP funding can also support the development of Local Hazard Mitigation Plans (LHMP) and project scoping activities.</p> <p>Projects must be eligible, feasible, and cost effective per FEMA's Hazard Mitigation Assistance Guidance. Projects must be stand alone activities that will reduce risk as their primary benefit, but Cal OES strongly encourages the submission of projects that achieve multiple benefits.</p>	TBD	25% local cost share	NOIs due December 31, 2021	Risk reduction	<a href="https://www.caloes.ca.gov/cal-oes-divisions/recovery/disaster-mitigation-technical-support/404-hazard-mitigation-grant-program">https://www.caloes.ca.gov/cal-oes-divisions/recovery/disaster-mitigation-technical-support/404-hazard-mitigation-grant-program</a>
Sustainable Groundwater Management (SGM) Grant Program's SGMA Implementation Round 1	DWR	<p>The SGM Grant Program's SGMA Implementation Round 1 will provide funding to GSAs to update/revise/modify their GSPs and other responsible entities to update/revise/modify their approved Alternatives to a GSP. The funding will also be used towards implementing the GSP or Alternative Plan. This funding is for critically overdrafted (COD) basins only. Funding will be provided through a competitive grant process.</p>	\$152.0	No matched funding requirement	Anticipated open date: December 20, 2021	Groundwater	<a href="https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-sgma-implementation-round-1/">https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-sgma-implementation-round-1/</a>
Proposition 1 – Round 2 Integrated Regional Water Management (IRWM) Implementation Grant Program	DWR	<p>The IRWM Grant Program is designed to encourage integrated regional strategies for water resource management in California by providing funding for projects and programs throughout the state including climate change adaptation, providing incentives for collaboration and setting priorities in water resource and infrastructure management, and improving regional water self-reliance while reducing reliance on Sacramento-San Joaquin Delta.</p>	\$192.0	50% local cost share with exceptions	Anticipated open date: Late 2021	Integrated water management	<a href="https://www.grants.ca.gov/grants/proposition-1-round-2-integrated-regional-water-management-irwm-implementation-grant-program/">https://www.grants.ca.gov/grants/proposition-1-round-2-integrated-regional-water-management-irwm-implementation-grant-program/</a>
Sustainable Groundwater Management (SGM) Grant Program's Proposition 68 Implementation Round 2	DWR	<p>Financial help with implementing SGMA projects. Round 2 opens up for medium and high-priority (including COD) basins. One application allowed per basin. \$15M (of the total \$77M) will be available in Round 2 for projects that are within and solely benefit an underrepresented community.</p>	\$77.0	25% local cost share with some exceptions	Anticipated open date: Fall 2022	Groundwater	<a href="https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-proposition-68-implementation-round-2/">https://www.grants.ca.gov/grants/sustainable-groundwater-management-sgm-grant-programs-proposition-68-implementation-round-2/</a>

Small Communities Flood Risk Reduction Program	DWR	The Small Communities Flood Risk Reduction Program (SCFRRP) is a cost-share local assistance program with primary goal of reducing flood risk for small communities (with 200 to 10,000 residents), including legacy and disadvantaged communities, protected by the State Plan of Flood Control facilities. Soliciting design/construction proposals, State may award 50% of eligible project costs to eligible small community's local public agency.	TBD	50% local cost share with exceptions	TBD	Risk reduction	<a href="https://www.grants.ca.gov/grants/small-community-flood-risk-reduction-program/">https://www.grants.ca.gov/grants/small-community-flood-risk-reduction-program/</a>
Habitat Enhancement and Restoration Program	Wildlife Conservation Board	Eligible projects include: native fisheries restoration; restoration of wetlands; restoration of coastal, tidal, or fresh water habitat; other native habitat restoration projects including coastal scrub oak, grasslands, and threatened and endangered species habitats; in-stream restoration projects, including removal of fish passage barriers and other obstructions; and other projects that improve the quality of native habitat throughout the State.	\$1.0	No matched funding requirement	Continuous	Ecosystem restoration	<a href="https://www.grants.ca.gov/grants/habitat-enhancement-and-restoration-program/">https://www.grants.ca.gov/grants/habitat-enhancement-and-restoration-program/</a>
Inland Wetlands Conservation Program	Wildlife Conservation Board	The Inland Wetlands Conservation Program (IWCP) was created to assist the Central Valley Joint Venture (CVJV) in its mission is to protect, restore, and enhance wetlands and associated habitats. The CVJV, a partnership of twenty two public and private organizations and agencies, has identified through its Implementation Plan, specific goals to increase migratory bird populations.	\$3.0	No matched funding requirement	Continuous	Ecosystem restoration	<a href="https://www.grants.ca.gov/grants/inland-wetlands-conservation-program/">https://www.grants.ca.gov/grants/inland-wetlands-conservation-program/</a>
Community and Economic Enhancement Grant Program – Proposition 68	Sacramento-San Joaquin Delta Conservancy	This non-competitive grant program focuses on increasing public access to the Delta through recreation and tourism opportunities, historic and cultural preservation, and environmental education in order to promote a robust Delta economy.	\$8.7	No matched funding requirement	Ongoing	Social/community resilience	<a href="https://www.grants.ca.gov/grants/community-and-economic-enhancement-grant-program-proposition-68/">https://www.grants.ca.gov/grants/community-and-economic-enhancement-grant-program-proposition-68/</a>
Regional Conservation Investment Strategies (RCIS)	Wildlife Conservation Board	WCB is seeking high-quality grant proposals for the development of RCIS's. CDFW's RCIS program encourages public agencies to develop regional conservation planning documents using the best available science to identify regional conservation priorities and other actions to help California's species populations that may be vulnerable or declining by protecting, restoring, creating, and reconnecting their habitats. A Regional Conservation Investment Strategy (RCIS) is a voluntary, non-regulatory document that provides guidance on actions that, if implemented, would result in effective regional conservation. Any public agency may propose an RCIS that is developed in consultation with local agencies that have land use authority within the RCIS area.	\$3.0	No matched funding requirement	Ongoing	Ecosystem restoration	<a href="https://www.grants.ca.gov/grants/regional-conservation-investment-strategies-rcis/">https://www.grants.ca.gov/grants/regional-conservation-investment-strategies-rcis/</a>

Infrastructure State Revolving Fund (ISRF) Program (Loan)	Infrastructure and Economic Development Bank (IBank)	<p>The ISRF Program provides financing to public agencies and non-profit corporations, sponsored by public agencies, for a wide variety of infrastructure and economic development projects (excluding housing). ISRF Program funding is available in amounts ranging from \$50,000 to \$25 million with loan terms for the useful life of the project up to a maximum of 30 years.</p> <p>Eligible Projects Include, but are not limited to: City streets, County highways, State highways, Drainage, water supply and flood control, Educational, cultural and social facilities, Environmental mitigation measures, Goods movement-related infrastructure, Parks and recreational facilities, Port facilities, public transit, Power and communications facilities, Public Transit, Sewage collection and treatment, Solid waste collection and disposal, Water treatment and distribution, Defense conversion, Public safety facilities, Military infrastructure, Industrial, utility and commercial.</p>	\$100.0	No matched funding requirement	Continuous	Social/community resilience	<a href="https://www.grants.ca.gov/grants/infrastructure-state-revolving-fund-isrf-program/">https://www.grants.ca.gov/grants/infrastructure-state-revolving-fund-isrf-program/</a>
RCD Financial Assistance Program	Department of Conservation	<p>Financial Assistance Program funding will help Resource Conservation Districts (RCDs) become more relevant, excellent, and visible by building capacity. Capacity building is an investment in the effectiveness and future sustainability of an organization. While this funding is an initial investment in RCD capacity, the growth, effectiveness and sustainability of an RCD is ultimately the responsibility of the organization.</p>	\$0.1	25% local cost share of which 40% must be in cash	Forecasted program	Social/community resilience	<a href="https://www.grants.ca.gov/grants/rcd-financial-assistance-program/">https://www.grants.ca.gov/grants/rcd-financial-assistance-program/</a>
