

USJR RFMP State Funding Opportunities - 12/9/22

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Cost Share Details	Deadline	Water Management Category	Reference
Sustainable Groundwater Management (SGM) Grant Program's Proposition 68 Implementation Round 2	DWR	Financial help with implementing SGMA projects. Round 2 opens up for medium and high-priority (including COD) basins. One application allowed per basin. \$15M (of the total \$77M) will be available in Round 2 for projects that are within and solely benefit an underrepresented community.	\$20 per award	25% local cost share with some exceptions	No funding match is required for disadvantaged community applicants.	Application deadline: December 16, 2022	Groundwater	Link
Proposition 1 Round 2 Integrated Regional Water Management (IRWM) Implementation Grant Program	DWR	Subject to regional priorities, projects may include, but are not limited to, the following: Water reuse and recycling; Water-use efficiency and water conservation; Local and regional surface and underground water storage, including groundwater aquifer cleanup or recharge projects; Regional water conveyance facilities that improve integration of separate water systems; Watershed protection, restoration, and management projects, including projects that reduce the risk of wildfire or improve water supply reliability; Stormwater resource and flood management; Conjunctive use of surface and groundwater storage facilities; Water desalination projects; Decision support tools to model regional water management strategies to account for climate change and other changes in regional demand and supply projections; Improvement of water quality, including drinking water, groundwater, wastewater treatment, water pollution prevention, and management of urban and agricultural runoff; Regional projects or programs as defined by the IRWM Planning Act (Water Code §10537).	\$8.6 available for San Joaquin River region	50% matched funding requirement	The 50% matching fund requirement does not apply to Disadvantaged Communities.	Application deadline: February 1, 2023	Integrated water management	Link
California State Duck Stamp Project Proposal Solicitation Notice FY 2023-24	CDFW	<p>Examples of eligible projects include, but are not limited to:</p> <ul style="list-style-type: none"> • Enhance/restore/maintain wintering or nesting habitat for CA waterfowl species • Restoring or creating brood ponds/summer water for CA waterfowl species • Enhancing or restoring fall and spring use areas for CA waterfowl species • Establishing islands and loafing bars • Levee repair, replacement of water control structures, pump repair and installation • Fence installation to control and/or manage livestock or wildlife and/or to enhance upland habitat for waterfowl nesting and goose forage • Removal of nonnative invasive plant species and restoration (active or passive) of native and other desirable wetland or upland vegetation • Research to obtain population parameters of species/subspecies/population • Investigations of limited resources for specific species or subspecies such as eelgrass for Black brant 	\$1.1	No matched funding requirement		Application deadline: February 2, 2023	Ecosystem restoration	Link
Urban Streams Restoration Program	DWR	The Urban Streams Restoration Program (USRP), established by Water Code section 7048 which declared that urban creek protection, restoration, and enhancement are best undertaken by local agencies and organizations with assistance from the State. The USRP funds projects and provides technical assistance to restore streams impacted by urban development to a more natural state.	\$12.4	20% local cost share with exceptions	No funding match is required for disadvantaged community applicants.	Ongoing	Ecosystem restoration	Link
Ecosystem Restoration and Agricultural Lands	Wildlife Conservation Board	The intent of the Ecosystem Restoration and Agricultural Lands program is to collaborate with the agricultural community in identifying and implementing projects that provide long-term habitat benefits for wildlife, consistent with landowner objectives, including economic sustainability, and have the potential for replication on a statewide scale.	\$5.0	No matched funding requirement		Ongoing	Ecosystem restoration	Link
Climate Adaptation and Resiliency	Wildlife Conservation Board	Program funding is directed toward projects that: Protect and restore ecosystems on natural and working lands to provide climate change adaptation and resilience for wildlife. Assist natural and working lands managers in implementing practices that provide climate adaptation and resilience. Increase carbon sequestration in natural and working lands, and provide additional social, economic, and environmental benefits, or "co-benefits".	\$2.0	No matched funding requirement		Ongoing	Climate change	Link

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Cost Share Details	Deadline	Water Management Category	Reference
Stream Flow Enhancement	Wildlife Conservation Board	The following are funding priorities for the stream flow enhancement projects: <ul style="list-style-type: none"> • Implementation projects resulting in measurable increases in stream flow • Acquisition projects resulting in permanent or long-term in-stream flow dedications • Projects that are focused on a watershed or regional approach • Projects in critical watersheds for salmonids • Projects that help to complete previously funded projects • Projects that evaluate stream flow conditions and stream responses to other stream flow enhancement projects 	\$140.0	No matched funding requirement		Ongoing	Ecosystem restoration	Link
Wildlife Corridor and Fish Passage	Wildlife Conservation Board	The Program is seeking proposals for planning or implementation projects that construct, repair, modify, or remove transportation infrastructure or water resources infrastructure improving passage for wildlife or fish. Additional consideration will be given for projects that restore or enhance wildlife mobility or fish passage across barriers whose impacts on migration have been increased by drought conditions.	\$5.0	No matched funding requirement		Ongoing	Ecosystem restoration	Link
404 Hazard Mitigation Grant Program	Governor's Office of Emergency Services	Hazard Mitigation Grant Program (HMGP) funds plans and projects that reduce the effects of future natural disasters. In California, these funds are administered by the Cal OES HMGP Unit. Eligible subapplicants include state agencies, local governments, special districts, and some private non-profits.	\$0.5	25% matched funding requirement		Ongoing	Risk reduction	Link
Habitat Enhancement and Restoration Program	Wildlife Conservation Board	Eligible projects include: native fisheries restoration; restoration of wetlands; restoration of coastal, tidal, or fresh water habitat; other native habitat restoration projects including coastal scrub oak, grasslands, and threatened and endangered species habitats; in-stream restoration projects, including removal of fish passage barriers and other obstructions; and other projects that improve the quality of native habitat throughout the State.	\$5.0	No matched funding requirement		Ongoing	Ecosystem restoration	Link
Inland Wetlands Conservation Program	Wildlife Conservation Board	The Inland Wetlands Conservation Program (IWCP) was created to assist the Central Valley Joint Venture (CVJV) in its mission is to protect, restore, and enhance wetlands and associated habitats. The CVJV, a partnership of twenty two public and private organizations and agencies, has identified through its Implementation Plan, specific goals to increase migratory bird populations.	\$2.0	No matched funding requirement		Ongoing	Ecosystem restoration	Link
Community and Economic Enhancement Grant Program – Proposition 68	Sacramento-San Joaquin Delta Conservancy	This non-competitive grant program focuses on increasing public access to the Delta through recreation and tourism opportunities, historic and cultural preservation, and environmental education in order to promote a robust Delta economy.	\$8.7	No matched funding requirement		Ongoing	Social/community resilience	Link
Regional Conservation Investment Strategies (RCIS)	Wildlife Conservation Board	WCB is seeking high-quality grant proposals for the development of RCIS's. CDFW's RCIS program encourages public agencies to develop regional conservation planning documents using the best available science to identify regional conservation priorities and other actions to help California's species populations that may be vulnerable or declining by protecting, restoring, creating, and reconnecting their habitats. A Regional Conservation Investment Strategy (RCIS) is a voluntary, non-regulatory document that provides guidance on actions that, if implemented, would result in effective regional conservation. Any public agency may propose an RCIS that is developed in consultation with local agencies that have land use authority within the RCIS area.	\$1.5	No matched funding requirement		Ongoing	Ecosystem restoration	Link
Infrastructure State Revolving Fund (ISRF) Program (Loan)	Infrastructure and Economic Development Bank (IBank)	The ISRF Program provides financing to public agencies and non-profit corporations, sponsored by public agencies, for a wide variety of infrastructure and economic development projects (excluding housing). ISRF Program funding is available in amounts ranging from \$50,000 to \$25 million with loan terms for the useful life of the project up to a maximum of 30 years. Eligible Projects Include, but are not limited to: City streets, County highways, State highways, Drainage, water supply and flood control, Educational, cultural and social facilities, Environmental mitigation measures, Goods movement-related infrastructure, Parks and recreational facilities, Port facilities, public transit, Power and communications facilities, Public Transit, Sewage collection and treatment, Solid waste collection and disposal, Water treatment and distribution, Defense conversion, Public safety facilities, Military infrastructure, Industrial, utility and commercial.	\$100.0	No matched funding requirement		Ongoing	Social/community resilience	Link

Fund Name	Funding Agency	Description	Estimated Amount (\$M)	Cost Share	Cost Share Details	Deadline	Water Management Category	Reference
San Joaquin Fish Population Enhancement Program	DWR	The SJFPEP funds projects to: -Enhance native fish populations in the lower San Joaquin River watershed. -Reduce the vulnerability of native fishes to water diversions, predation, and other impacts to their populations at all life stages within or upstream of the Delta. SJFPEP projects improve conditions for the survival of various life stages of salmonids and other native fishes in the lower San Joaquin River watershed.	\$20.0	No matched funding requirement		Not Yet Open	Ecosystem restoration	Link
Integrated Climate Adaptation and Resiliency Program	Governor's Office of Planning and Research	Three programs: Adaptation Planning Grant, Regional Resilience Planning and Implementation, Community Resilience and Heat Grant. Authorized in the 2021 State Climate Budget to fund local, regional, and tribal climate adaptation and resilience efforts across the state.	\$250.0			Not Yet Open	Climate change	Link
